

RED JAM

AN INTRIGUING RED ALE

ABV: 6%

IBU: 29

Secret Ingredient: Honeybush - A South African Red Bush Tea

The Red Jam is a beautiful red ale filled with aromas and flavors of strawberry jam and other dried fruit. Unlike many "fruit beers" this beer is not sweet, because it contains no syrups, fruits, or purees. The Red Jam's intrigue comes from the unique combination of grains, hops, and honeybush. The beer smells sweet, but finishes dry with bitterness for balance.

Enjoy with soft cheeses, smoked meats, and dessert!
