BARRELED JAM ALE AGED IN OAK BARRELS · ABV 8.1% · IBU: 29

HIGH GRAVITY

The base beer is the Red Jam, which we consider the world's most intriguing and drinkable red ale. The Red Jam is slightly tart with dried fruit and berry flavors. As before, no fruit, puree, syrups, or extracts are added. The jam like nuances originate from the unique combination of grains, hops, and bush tea!

We barrel age the Red Jam to create the Barreled Jam. The aging process brings forth notes of chocolate, coconut, and vanilla. The combination of which creates a fascinating sensory experience that is easy to drink and divine with dessert! Cheers!

RED JAM AN INTRIGUING RED ALE

ABV 6% · IBU: 29

Secret Ingredient: Honeybush - a South African red bush tea

The Red Jam is a beautiful red ale filled with aromas and flavors of strawberry jam and other dried fruit. Unlike many "fruit beers," this beer is not sweet, because it contains no syrups, fruits, extracts, or purees. The Red Jam's intrigue comes from the unique combination of grains, hops, and honeybush.
The beer smeels sweet, but finishes dry with bitterness for balance.
